

T. W. ROBINSON'S.

WANTED

TWO

EXPERIENCED SALESMEN.

No time to write an advertisement this week, we are too busy

T. W. ROBINSON.

I. M. CHALMERS,

NEW GOODS

FOR FALL AND WINTER

We have received an elegant range of Ladies' Mantles, Superior in quality and workmanship to any that has ever been shown in this District. Also in dress goods, Melba and Rigby Waterproof Cloth, we are far ahead of all competitors. n Fancy Goods our stock is complete, comprising Fancy Silks and Satins of the finest texture. Berlin and Zephyr Wool. Stamped Linen Felts, Etc. Every Lady should see our Stock.

I. M. CHALMERS

R. C. MACDONALD.

Fruits, Confectionery, Canned Goods, Teas, Tobaccos, Cigars, Pipes, etc., etc.

Ice Cream and Oysters in Season

WHOLESALE

Wine, Liquor and Cigar Store.

I have just received my winter stock of the above goods, consisting of the finest brands of the best known manufacturers in the foreign and home market. So if you must or will drink, take my advice and imbibe only the choicest liquors procurable in the wide, wide world.

Stock up for Xmas.

O. FIELD,

THE DOCTOR TALKS.

Our Town Practitioner Interviewed by an Ottawa Journalist.

The following interview, which will be read with interest, appeared in the Ottawa Journal of the 27th ult.:

"Dr. Turnbull of Moose Jaw, N. W. T., is in the city and stopping at the Grand Union. Speaking to The Journal last night about Moose Jaw and vicinity, he said the farmers in his district are the lucky owners of splendid wheat crops. The wheat, which is No. 1 hard, has threshed out on an average about twenty bushels to the acre. It is all round good quality as no frost or other blight has touched it.

LANDS TAKEN UP.

For ten miles or so on each side of Moose Jaw, all the government land has been taken up by settlers, nearly all of whom are Ontarians, some of whom came to the Territories very light in pocket. Good government land is to be had for the taking up, and plenty of it ten miles outside of the town, and railway land can be had near the town at prices ranging from four to seven dollars per acre. Now they are the owners of well cultivated farms and are comfortable and happy and feel every encouragement that the future will see them advancing in the march towards increased prosperity. There are no growlers to be found amongst the farmers who have settled about Moose Jaw.

\$5 A DAY.

Speaking about the growth of the town, the doctor said some 80 new buildings have gone up there this summer and the majority of them were built of brick. Bricklayers were brought out from Winnipeg and paid \$5 per day and the employment extended over the entire summer.

RAILWAY BUILDING.

As to railway building, the doctor says the grading on the "Soo" road to Moose Jaw will soon be completed and then the people will have direct communication with Minneapolis and from that city to Sault Ste. Marie. This will give a great impetus to trade and the town is expected to put on next summer an increased hum.

THE LAST OF THE BAND THAT FINISHED CUSTER.

A few miles to the south of Moose Jaw, Dr. Turnbull relates, are encamped the remnant of the Sioux band of Indians who overwhelmed General Custer and his 12th U. S. cavalry in the Black Hills in 1876 at the time of what is known as the Sitting Bull war. Black Bull is now the chief of the tribe and tells the details of the battle when Custer and his command were slaughtered by the Sioux. Black Bull has a magnificent field glass which was owned by a United States officer and which he picked off the field of blood after the massacre was completed. This Sioux band are United States Indians who refuse to go back to that country although they were offered to be put on a reserve if they did so. Neither will they go on a reserve in Canada although the government has repeatedly offered to provide them with lands. They prefer to be free to come and go at will without any other restraint than the commands of their chief. They eke out a living, the women by making fancy work and the men by doing odd jobs about town. They are a noble-looking body of people and are quiet and peaceful. Consumption, however, has set in amongst them and their numbers are visibly decreasing. They will soon disappear."

References Decided.

The two lawsuits referred respectively to the decision of Seymour Green, J. P., and the arbitration of Alexander Davidson, Esq., have been decided.

SCHRAM VS. R. K. GRAYSON. This was an action of account which came on for hearing before Mr. Justice Richardson at the last sittings of the Supreme Court, at Moose Jaw; was by the said judge referred to Seymour Green, J. P., to take the accounts and adjudicate upon the issues in question, and make his report thereon to the court.

The plaintiff in the action claimed a balance of \$34 in his favor. The defendant disputed this, and also claimed, by way of offset, judgment in his favor of \$36.30.

After lengthy examination of witnesses, the Referee has made his report. The items on the debit side of the account amounted to \$647.85; on the credit side to \$613.85.

The chief claims in dispute were \$20 for the use of plaintiff's fanning mill in 1887-8-9; \$20 for breach of warranty on the sale by the defendant to the plaintiff of a mare, sold as a mare in foal and \$8 for a gun sold by plaintiff to the defendant under warrant that it was in good condition.

The Referee allowed the fanning mill account at \$12 and the two last accounts at the sums claimed. He found a balance due the plaintiff on the final taking of accounts of \$12.60, and dismissed the defendant's counterclaim.

A motion will be made before the judge for judgment for the plaintiff with costs pursuant to terms of report.

W. J. Nelson, for plaintiff; Wm. Grayson, for defendant.

ROBEY VS. ANNABLE.

This action also came on for hearing before Judge Richardson at the same sittings.

Counsel for the both parties consenting, the judge referred the case to the award of Alex. Davidson.

The Plaintiff claimed \$335 (and interest), on a promissory note given by defendant to him. This note the defendant admitted, but claimed the plaintiff was indebted to him in the sum of \$172.50, on an open account for cutting hay and wintering cattle for the plaintiff. The balance of the plaintiff's claim \$162.50, the defendant paid into court with his defence of set-off.

The Referee allowed the set-off of \$172.50 at \$82.50 leaving a balance of \$90 due by the defendant to the plaintiff.

The Referee directed each party to pay their own costs of the action.

T. C. Johnston, Regina, and Wm. Grayson, counsel for plaintiff. W. J. Nelson and John G. Gordon, counsel for defendant.

Delegates Meet.

OTTAWA, Nov. 1.—Messrs. Bowell, Thompson and Chapleau will leave on Thursday for Halifax. They are the Canadian delegates appointed by the cabinet to meet the Newfoundland delegates, who leave St. John's, Nfld., to-morrow for Halifax, to have a conference over trade difficulties which have arisen between the Dominion and her sister colony. The bait and fishery question will also come up for consideration at the conference. As the government of Newfoundland have recently shown a desire to reach an amicable settlement of the commercial troubles which arose some eight months ago by going back to the old trade arrangements, until such time as this conference took place, there is every reason to believe that the meeting of the representatives of the two governments will not only end with good results, but will pave the way towards Newfoundland's in the near future entering confederation. This question has been seriously discussed by the press of the island of late. Douglas Stewart, private secretary to Sir John Thompson, will act as secretary to the Canadian delegates.

HALLOWEEN.

The Youth of Moose Jaw Get in Their Work.

Time was when Halloween pranks and spells and charms and invocations of some imaginary unseen power claimed more or less attention from young and old. For riotous mirthful enjoyment its sports were second only to valentine revels in the fascination they presented to the youthful mind.

Why the eve of All Saints should have been vulgarly supposed to put mankind into more immediate communication with spirits of good or ill would be difficult to discover. Probably there was a gradual accretion of old Saxon myths around the folk-lore of the north Britons, which ultimately assumed a semi-Christian character, and became what our grandfathers enjoyed when they were boys.

The boys of to-day treat the old superstition very irreverently. Spells relating to courtships and marriage on Halloween have well nigh passed away. The doings which signalize the night are chiefly mischievous pranks, indicating the near approach of a time when Halloween will only be remembered as something which the world of to-day has wisely outgrown.

THE NIGHT IN MOOSE JAW.

In our town the boys were fairly well-behaved. A few barrels and boxes were displaced, or arranged where they were not wanted. Some wagons and building material and plant were utilized to barricade Main Street, but with no such political significance as the "Blawasted fence," by which, in bygone days, the unlamented Louis Riel barred "Wandering Willie's" entrance to Manitoba.

An attempt to freeze a door with stale eggs was a failure, from an artistic point of view. The youthful practitioner should have borrowed a paint pot and brush.

On the whole the boys got in their little time of tomfoolery without injuring any property and this admittance of sense and nonsense must excuse them.

The New Minister.

Speaking of the appointment of Mr. Daly as Minister of the Interior, the Edmonton Bulletin observes: "Of the new minister it can truthfully be said that he is a man of considerable ability, that he is strictly a representative man, that there has as yet been no reason to think him of the sticky fingered variety, that he owes his elevation to no mysterious influences and that as he depends for his future advancement upon the success of his present administration, there is a fair presumption that North-West affairs will be administered more nearly from a North-West point of view now than ever before. As compared with any other Manitoba member he is infinitely preferable. Of the North-West members the Bulletin would have preferred either Mr. McDowall or Mr. Davin, and certainly had it been possible for the former gentleman to have accepted the position, would have been anxious to make every possible effort to secure his elevation. As Mr. McDowall cannot see his way clear to accept the position, and as Mr. Davin has possibly lost to some extent the necessary confidence of his party leaders, Mr. Daly is certainly the next choice, even for the North-West, as he is no doubt the first for Manitoba."

Had a Rough Passage.

VANCOUVER, B.C., Oct. 31.—The steamship Empress of Japan arrived this morning two days late, having experienced rough weather in the Formosan channel, being in the same gale as the P. & O. steamer Bosphorus.

which foundered recently. She had fifty-five first and seventeen second class saloon passengers and 100 Chinese. She also brought thirty nine seamen of the sailing schooner that had been seized by the Russians. The cargo consisted of 2,100 tons. Among the passengers were J. Strindberg, the newly appointed Japanese ambassador to Canada, whose headquarters will be at Vancouver. Mrs. Patterson, wife of the surgeon general of Hongkong, was another passenger.

Prairie, Peak and Canyon.

OTTAWA, Nov. 2.—C.H. Mackintosh has returned from a trip to the west where he has been collecting material for his impending volume entitled "Prairie, Peak and Canyon." The work will be published simultaneously in Canada, the United States, and Great Britain.

FOX AND HOUNDS.

The Second Night of the Moose Jaw Hunt Club.

On Saturday the hounds met at 12.30 in town. After a ride of five miles to the south, "Spring" sighted a fox and "Tally ho" was sounded by Mr. W. T. Barrett.

The hounds were brought into line with "Spring" leading. The fox seemed to realize that trouble was in store for him and acted as though he had a promising engagement elsewhere. The chase led the party over some very bad ground which had the effect of separating them. "Spring" kept the lead but ran the hounds off his legs on a sharp stone and had to yield his place to "Wanda" and "Hector," who ran neck and neck for a short distance and turned their quarry to "Donovan" "Flora" and "Lorena." Miss Notman, the first lady in the death, was presented with the brush. Thence from end to finish was about twenty-five minutes.

On the ride home, as the master of hounds was riding along the bank of a coulee in hope of starting a wolf that had been seen there the day before, "Spring" sighted one of the largest jack-rabbits ever seen in the neighborhood.

"Bosny" led the hounds a beautiful chase for about three miles, taking a northerly course, with considerable wrenching. He was turned and killed after a run of about twenty minutes. Miss Smith was presented with the pet.

The usual run will take place tomorrow at 12 o'clock.

Daily's Welcome Home.

BRANDON, Nov. 1.—Hon. Theo. Daly was met at the station here by enthusiastic citizens and a torchlight procession and band, and he was escorted to his home through the streets, which were decorated and illuminated and lined by crowds. Brandon is proud of the honor conferred on her by the recent appointment. Daly will be banqueted on Friday.

A Great Event.

It is said the greatest thing in Al-manacs this or any other country has yet seen will be the Great Almanac of Montreal, 400 pages and 5 maps. To be perfectly sure of getting it we believe it will be best to give your order to a news-dealer.

C. P. R. Earnings for September.

MONTREAL, Oct. 31.—The Canadian Pacific earnings for September, 1892, were as follows: Gross earnings, \$1,575,031; working expenses, \$1,058,095; net profit, \$516,936. In September, 1891, the net profit was \$505,540, and for the nine months ending September 30th, 1892, the figure was as follows: Gross earnings, \$14,314,023; working expenses, \$9,541,000; net profit, \$4,773,023. For the nine months ending September 30th, 1891, the net profit was \$4,587,707.

FRIDAY, NOVEMBER 4, 1892.

THE TWO CANDIDATES.

The chief topic of interest through the North West Territories is the election campaign in the constituency of Wallate. Mr. Insinger of the Beaver Hills Ranch and Mr. Thos. McNutt of Saltcoats are the candidates.

Mr. Insinger is a native of Holland, but has been seven years in the N. W. T., and has become a good Canadian in every sense of the word. He is a young man of excellent education, and his conversation on subjects political betrays the fact that he has been a close student of the constitution of his adopted country. He is strongly opposed to the introduction of partyism into Assembly affairs, and is fully alive to the fact that Mr. Cayley's enunciation of a "policy" and that gentleman's claim that the Executive Committee should initiate legislation mean only that Mr. Cayley's desire is to perpetuate partyism in the House. He also fully understands that Mr. Cayley's declaration that he intends to pass the School Bill next session must be considered in the light of the fact that should Mr. Cayley be sustained and such school bill be passed—then Mr. Cayley's executive will exercise the functions of the present Board of Education and that his executive, dependent for its political existence on Prince, Boucher and Clinksill, dare not support the views of these gentlemen on educational matters. Mr. Insinger strongly holds that all the circumstances connected with Mr. Cayley's accession to office are such as should, in the interest of honorable politics, be given an emphatic condemnation. He will therefore vote in favor of a motion of want of confidence in the Cayley executive and there is no doubt in the minds of the vast majority of the electors of Wallace that Mr. Insinger will record their verdict on Cayley's case shortly after the House next meets. Notwithstanding the fact that the late election was run on "locality" lines, Mr. Insinger will poll a majority of votes at Saltcoats, where his opponents reside.

Mr. Thos. McNutt, the Cayley candidate has been a resident of Saltcoats. He has warm personal friends throughout the constituency who regret his unfortunate stand as a Cayley candidate, taken in full view and knowledge of the fact that ere he had declared himself for Cayley, they had declared their intention to support a Haultain candidate, regardless of all personal and local considerations—a fact that makes it necessary for them to vote against him. They feel, however, that at the present crisis in the local government, every other consideration must be subordinate to the country's weal. Nevertheless his many friends profoundly regret the unfortunate stand Mr. McNutt has taken.

BY THE FORELOCK.

When municipal elections are on there will be personal and sectional issues to discuss which will divert public attention from far more important matters.

Now, in the calm "Bforeland," we deem it well to suggest a few topics worthy of the thought and serious consideration of the people of Moose Jaw.

Our town is young. It is also strong in the elements of commercial prosperity. Very wisely our citizens have avoided the error of subsidizing railways and mills. Moose Jaw is not loaded down with debt. Our hands are free to deal with the growing needs of water supply, street construction, drainage, fire protection, street-lighting, etc.

Probably the most pressing and important requirement of the near future is a pure and abundant water supply. The method by which our citizens now obtain water might be improved by a comparatively trifling outlay. The needs of the near future demand a system of water works. Now is the time to study the situation: to obtain the advice of competent engineers: to estimate the sources of revenue to meet that cost, in order that early next spring, if deemed prudent, works may be begun.

In regard to street construction, as little as possible of grading should be done until effective drainage on a permanent system has been planned and carried out. The cost of draining a street already covered with gravel greatly exceeds the cost of similar work where the native soil only is to be dealt with.

In the past the various town councils have, on the whole, expended money honestly and effectively, and on a sane common-sense basis with our limited means and requirements. But the growth of the town, the increasing number of commercial buildings and handsome private residences, point to the necessity of public improvements which, in proportion as they are important, necessary and costly, will require prudent forethought, judicious planning and united action on the part of the citizens and their representatives in the council.

THO' DEAD HE YET SPEAKETH.

The influence of literature upon human life is strikingly exemplified in the interest which all civilized nations manifest in the death of Tennyson.

The removal of a great warrior might make a more general topic of street conversation; the fall of an Empire might give a greater shock to the political or commercial world; but the withdrawal from earth of one who has been a great teacher of mankind stirs the heart of all who read intelligently, and the readers of Tennyson, now that he is gone, are drawn together by a close bond of sympathy. Humanity is felt to be a unit in the possession of the treasures of thought he has bequeathed to the world. Tennyson's name has been a household word among English-speaking people during more than a generation. It will now be more so than ever.

Far more important, however, than the interest in the poet's death, manifested by the reading world, is the fact that in his works he still lives to be a teacher of men. A nobler monument was never erected by a grateful nation to warrior or statesman than the monument which this quiet, studious, observant man has built for himself. A faithful servant of his fellow man, a true friend of humanity was Alfred Tennyson.

Now that his works are indeed "complete," it will be the duty of all who minister to the minds of the rising generation to commend to them the pure thoughts, the wise counsels, the noble incentives to the Good and True with which his works abound.

EDITORIAL NOTES.

N. F. Davin, M. P. for Western Assiniboia has been elevated to the dignity of Q. C.

J. W. Bengough will deliver a lecture in Montreal on Nov. 18th, his subject being "The Single Tax."

The trade conference between Canada and Newfoundland will take place in Halifax on Nov. 2nd. Thompson will replace Tupper as delegate, the latter being compelled to leave shortly for England.

Henry M. Stanley wants to know why the £40,000,000 which Great Britain pays the American negro for cotton could not be transferred to Eastern Africa, where that great staple might be produced in immense quantities by the cheapest means and on British soil?

It is said that we are indebted to the Pompeians for our knowledge of fruit canning. When excavations were first made on the site of the old city, jars of figs were discovered by a party of tourists. When these were opened the contents were found to be as perfect as when poured into the jar nineteen centuries before. Investigation showed that the fruit had been put into the jars when heated, and sealed over after the steam had been allowed to escape. The following year saw the establishment of canning factories.

First Canadian barley, then eggs and horses find a market in Britain. Now it is hay. Extensive British contracts are, it is said, being made with the farmers in the Ottawa district for their surplus hay. Freight is now very low in price, and with figures ranging from \$17 to \$23.75 for clover and \$12.75 to 22.25 for meadow hay in Britain money should be made in exporting it rather than to the States. If the hay were not exported at all, perhaps that would be better.

Scientists have lately been discussing how long a body shows signs of life after the head has been severed from it. They might with profit turn their attention to the Cayley administration which on the 10th of next month will fall into this dire plight.

The fight in Wallace will be close but it is upon the straight question, Haultain vs. Cayley, Responsible government vs. Minority rule, Constitutional procedure vs. Absolutism. There is no doubt as to the result. The cause of popular government will triumph and its lovers throughout the Territories may breathe freely.

The Empire speaking of a recent lecture delivered in Halifax by Erasmus Wiman says:—What poor specimens of Canadians they must be who will listen to their country being misrepresented, maligned and belittled by a vulgar adventurer from New York! What a travesty upon free speech that a mere carter, who has declared on oath that the policy he advocates is the shortest road to annexation, should be allowed to indulge in the most malicious untruths about the condition of Canada, and be received with honor and embraced with joy by leaders of one of the political parties of this country.

Chicago is much excited over a regulation issued in connection with the recent official ball. It seems that the Committee proclaimed evening dress essential, and thus betrayed the fact that men might appear in blue jeans or buttoned women in bombazine and straw bonnets unless the prohibition were made public and enforced by the police. The reason given for the order is even funnier than the objection raised. It seems that a short time ago a Congregational party was visiting Chicago, and an evening affair was got together in honor. We leave the *Herald* to describe the result: "Members of the Congregational party went to the other party in all sorts of clothes—and took the babies. It is a fact that some of these babies were put to sleep by fond parents on the velvet cushions of the brilliant drawing rooms." Our contemporary was going on, but just here its feeling proved too much for further expression—and we draw the curtain.

The *Globe* says: "The opinion is gaining ground in Manitoba that the Dominion Government will attempt to settle the difficulty arising from the abolition of the separate schools by setting apart for separate schools a portion of the school lands, or a fund arising from the sale thereof. The Dominion Government has no more right to interfere with the direction of the fund than it has to say how provincial subsidies shall be spent. It has no power to set apart lands as money for the benefit of any educational corporation, or to have power to pay money over to, or in any other manner deal with, any person or corporation other than the Government of Manitoba. Such is the plain meaning of the law as it stands at present. It may be contended that the Dominion Parliament has power to alter its own laws so as to deprive the Government of Manitoba of its control over the funds and transfer that control to Federal ministers. Such an act would contravene the spirit if not the letter of the provision that the province is to control its own educational system."

We are told by the Prince Albert correspondent of the *Free Press* that our condemnation of Lieutenant-Governor Royal's tyrannical disregard of constitutional law by which the people's representatives are, for the time, debarred from controlling legislation, is prompted by a desire to curry favor with somebody or other.

Our friend's strictures and the aid and comfort he seeks to extend to the unsung faction, can only impose on the ignorant the thoughtless, and those who, having already prejudged the case, catch at any sophism to bolster up a bad cause.

The correspondent claims a fair trial for the Cayley executive. At the bar of public opinion, they have already been tried and condemned. If dissatisfied with this judgment they should appeal to the electorate,—the court of ultimate jurisdiction. From this they shrink for reasons quite obvious. Perhaps they are honest; but what are these honest men doing in illegal possession of place and power? As Doctor Caius says "There shall no honest man come into my closet!"

The consensus of intelligent public opinion has already more than sustained our arraignment of Lieutenant-Governor Royal and the men whom he is keeping in office in direct contravention of the law by which he holds his own.

Sugar can now be refined at a profit of an eighth of a cent a pound, and sometimes as low as a sixteenth; or, in other words, from eight to sixteen pounds of raw sugar must now be treated in refining in order to make a cent; from eight hundred to sixteen hundred and sixty thousand pounds to make a hundred dollars, and so on. The mere capital requisite for providing and carrying the raw material necessary for the successful prosecution of this business, apart from all other conditions, places it, therefore, of necessity beyond the reach of any ordinary capitalist or producer. Hence from such conditions have grown up great corporations or stock companies, which are only forms of associated capital organized for effective use and protection. They are regarded to some extent as evils; but they are necessary, as there is apparently no other way in which the work of production and distribution in accordance with the requirements of the age, can be prosecuted. The rapidity, however, with which such combinations of capital are organizing for the purpose of promoting industrial and commercial undertakings on a scale heretofore wholly unprecedented, and the tendency they have to crystallize into something far more complex than what has been familiar to the public as corporations, with the impressive names of syndicates, trusts, etc., also constitute one of the remarkable features of modern business methods. It must also be admitted that the whole tendency of recent economic development is in the direction of limiting the area within which the influence of competition is effective.

NOTES AND COMMENTS.

The Chicago Herald says: The rumor that \$5,000,000 had been raised in Chicago for the building of a trans-continental line through Canadian Territory from Victoria to Churchill is usually in the midst of its promoters. The money has not been raised and no one but the promoters can be found who believe it will be.

A move in the right direction is the action of the North-West Board of Education at a meeting held last week when it was resolved to recommend that normal sessions should be held during the coming winter months, not only in Eastern and Western Assiniboia, but also in Alberta and Saskatchewan, and that the attendance of teachers holding non-professional certificates should be made compulsory at such normal sessions.

Mrs. Harrison's death will create a wide measure of sympathy for the president of the United States. It is now many years since the future ruler was married to Miss Carrie Stetson, who is described by an old friend as having been lively and sweet dispositioned. Other than her husband, she has presided over the hospitalities of the White House with much dignity and social popularity, though in latter respect Mr. Cleveland, with her youth and beauty, may have excelled. His great loss will bring home to the President, even if receded, the vanity of earthly power to in itself produce or insure happiness.

The Toronto Week, referring to our review of the political situation in the North-West, wants to know "if the Ministers returned to their constituents for reelection, and seems to wonder why THE TIMES did not supply that information. In the same article the writer speaks of a "Premier," and uses other expressions indicating an ignorance of North-West affairs deplorably prevalent in the east.

We have no "Ministry" nor "Premier," nor any of the cumbersome, costly, and antiquated paraphernalia which constitutes so much of the alleged government in other communities. A committee of the assembly performs executive functions, and when the personnel of that committee changes in whole or in part, from any cause, there is not an acceptance of an officer of emolument which renders reelection necessary.

The contemporary, however, fully agrees with the conclusions set forth in our article.

There are now over 100,000 Jews in the Holy Land. The Jewish population there at present is larger than it has been at any other time since the end of the first century of the Christian era. Nearly four-fifths of them all have gone thither from other countries within the past few years, and they have been going thither this year more steadily than ever before. In former times only a small number of Jews were permitted to live in the country; but the restrictions upon their settlement in it and upon their ownership of land have been removed, and they are now at liberty to re-peopel it and take possession of it. The number of Jews who have returned to Palestine during the dozen years in which they have been free to enter, has been greater than the number who returned after the Babylonian captivity twenty-four centuries ago. In the city of Jerusalem itself, according to a report of the British Consul there, the Jewish population is now fully 40,000; and a large part of the real estate in and around the city is in Jewish hands. The number of synagogues, schools of learning, hospitals, and other public institutions is constantly increasing; the water supply has been improved; new streets have been opened beyond the walls; telegraphs and electric lights have been introduced; several factories have been set up, and the new railroad to Jaffa has already stimulated the activity of the population in various ways. "Palestine will soon be rocky for the Jewish race," says the Rev. Dr. Kelt of the Episcopal Church of Jerusalem, in a letter to the London Times.

Success.

The second of a series of lectures was delivered in the rooms of the Y. M. C. A., Winnipeg, on Thursday evening by Mr. D. J. Goggin, M. A. The topic was "Success," and the lecture was worthy of its name for a greater success could not have been scored. The audience was large and appreciative. The chair was occupied by Mr. S. R. Parsons. It would be impossible to give a fair condensed report of same. The lecture was studded with gems of thought lighted up here and there with illustrations, incidents and quotations from writers galore. The lecturer disabused the minds of many as to what may really be termed success. Wealth, position, influence and intellect had all at one time and another been associated with a successful career, yet there were many who had possessed all and whose lives were symbolic of utter

failure. That man's life was a success which was focused upon the one idea of uplifting his fellow men as well as developing himself. The all-around man was the successful man. Greece produced the most famous writers, and yet handed down to us the most perfect models of physical beauty. She believed in proportionate development of body and mind, and the men who today were wielding the destinies of nations were able to do their work so well because they believed in the gospel of "mens sana in corpore sano." In addition to this, however, man needed moral development, and his powers physical and intellectual should be under the perfect control of his moral propensities. The ideal man was the one who sought for proportionate development of all his faculties, physical, mental and moral, and who developed these to their utmost. Commenting upon the influences which should operate in a man to make him decide upon his calling, the lecturer advised all who were seeking success in their vocation to choose a calling which was first of all congenial to them and secondly one for which they were best suited. There were sufficient unpleasant things even in a congenial calling without going in for one which was not. Many excellent, practical points were thrown out. We only wish we had space to give a verbatim report of the lecture.

R. T. G. F.

Articles under this head are supplied by members of Gloucester Council No. 3, Royal Temple of Temperance, who are responsible for the same.

SELECTED.

Two persons are lodged in jail now at Woolstock charged with a crime such as drink and debauchery only are likely to bring about. Henry Hyatt, of Ingersoll and his paramour Mira Mathews, were arrested, he charged with horse stealing and she with being an accessory to the crime. The story is that while Hyatt and Louis Whit head where drinking and drunk Hyatt traded off Mira Mathews for a horse and she afterwards made her escape and so the arrest came about. She seems the principal witness in the case and in her statement says: "I got a bottle of whiskey and a little later on 'both were drunk' when the horse and woman trade was consummated. The Sentinel Review, writing of the case, says that the preliminary trial 'revealed a species of slavery in Oxford County which may startle the public.' The whiskey appetite slavery—the worst kind of slavery—is at the bottom of the disgrace and it ought to startle the public, but it does not—simply because we have got familiar with it.

A convicted murderer, James Slavin, was sentenced to be hanged, at Cornwall, on Friday last, for the shooting of J. R. Davey, while the latter was in the performance of his duty as constable. It is another of the many whiskey murders that occur in Canada every year. On the 10th of last September several men got drinking at one of the small taverns at Cornwall, and a drunken fight took place. One of the drunken men, Antoine Lafess, got shot in the body and the bullet lodged there yet, though he recovered. Mr. Davey went to arrest Slavin, who did the shooting, and then got shot himself and was killed instantly. He was a very much respected citizen of Cornwall, and his life was sacrificed because of other men's drinking. Slavin, according to the testimony, who was at once arrested, did not seem to be aware afterwards of just what he had done. He is yet a young man, but is said to be very ugly when intoxicated. He is now sentenced to be hanged on the 6th December. The liquor traffic thus scores two more victims in Cornwall.

RHEUMATISM NERVOUS DISEASES CAN BE CURED

ELECTRICITY, AS APPLIED BY THE OWEN ELECTRIC BELT AND APPLIANCES,

Is now recognized as the greatest boon offered to suffering humanity. It is fast taking the place of drugs in all cases of rheumatism, neuralgia, and all the various forms of nervous disease, and is the only remedy that is safe, reliable, and does not injure the system.

RHEUMATISM

"For twenty years I have been a martyr to rheumatism, suffering at times the most excruciating pain, from which I could get no relief, for doctors' medicines, painkillers, etc., had no effect. It was only when I got the Owen Electric Belt that I began to get well. I am thoroughly cured, and have been so for months. The belt's action was most marvellous, removing the pain in a few days."—H. SCHMIDT, 21 Vansley street, Toronto.

NERVOUS DISEASES

The cause of people suffering from a variety of nervous diseases such as General Weakness, Insomnia, Headaches, etc., that the old modes of treatment fail to cure. There is a great nerve force power that cannot be restored by any medical treatment, and may be restored by the use of the Owen Electric Belt. It is a powerful agent in providing a dangerous form of nervous disease. Rheumatism, as applied by the Owen Electric Belt and Appliances, is the only safe and reliable agent that will supply what is lacking, namely, nerve force or power, directly to the seat of the disease, and cause it to finally return to the state of normality.

KIDNEY DISEASE

"Your belt has done wonders for me. It stopped the bleeding of my kidneys, which were so bad that my doctor failed to help me. I am satisfied it saved my life, and I am a warmer supporter of the belt than ever before."—W. F. PARSONS, Bluevale, Ont.

LUMBAGO AND LAME BACK

"With a variety of my doctor, after everything else failed, I got an Owen Electric Belt for my lumbago and lame back. At that time I was so bad I could not stand on my feet, and was unable to do any work. After wearing the belt for a short time the pain was gone, and I am as well as ever. I know it was the belt cured me, and I would advise anyone suffering from lumbago or lame back to get the Owen Electric Belt."—W. J. LEWIS, conductor C.P.R., Owen Sound, Ont.

DYSPEPSIA

"For over four years I have been a sufferer from indigestion, stomach and nervous troubles, and have spent hundreds of dollars on doctors and drugs without any benefit. I purchased the Owen Electric Belt about four months ago, and have worn it since with the most beneficial results, for I am perfectly well and free from every trouble."—A. McDougall, Bluevale, Ont.

WE CHALLENGE THE WORLD

We show an electric belt where the current is under the control of the patient as compared with the old modes of treatment. We can use the same belt on an infant that we would on a giant by simply turning the current down. We have used it on the most delicate of infants for two or three years longer, but they have all been cured. We have made and sold them all other makes combined.

SEWING MACHINES AND CHEAP BELTS

Belts made of gold and silver, of Dr. A. Owen enclosed in gold upon every belt and made of the finest materials. The Owen Electric Belt and Appliances Co. has genuine belts made of gold and silver, and of the finest materials. Mailed (sealed) FREE.

FALL OPENING

SEASON 1892.

Six years ago when I started business on the cash plan, other merchants gave me three months to last. I am here yet and have pretty well demonstrated the fact that the people of Moose Jaw will pay cash if by doing so they can save money. This system has enabled me to throw on the market large lots of goods purchased from large wholesale stocks, parties retiring from business, and overloaded manufacturers. These I have sold at low prices at the same time selling regular goods at from 10 to 25 per cent. less than other dealers. I shall continue this method of doing business regardless of croakers.

I will have auction sales on the following dates:

OCTOBER 8TH, 15TH, 22ND AND 29TH,

OF

Cook-stoves, Heating-stoves, Stove Furniture, Cutlery, Brushes, Brooms, Etc., Etc.

I have just received a car-load of all kinds of stoves. Another car-load is on the way. These goods are sold at the lowest prices. Call and see my stock.

FOR CASH ONLY.

Thanking you for past patronage.

Yours truly,

W. R. CAMPBELL

Have you ever heard of MASTER MECHANICS SOAP,

40 Cakes for 15 CENTS.
2 Cakes for 25 CENTS.

the public that she has opened out in
her new boarding house on High street.
Good board and lodgings by the day
or week may be obtained at moderate
charges. A special suit of rooms is kept
for transient custom.

A CHAPTER OF ACCIDENTS.

A Townsman Severely Injured Thrashing Accident.

On Saturday morning last a painful
accident occurred in the C. P. R. yard
at Moose Jaw, by which Mr. Thor.
Hannah, a popular townsman, sustain-
ed injuries of an exceedingly serious
nature.

Sometime after midnight the train
crew to which Mr. Hannah belongs was
engaged in moving some cars near the
stock yards. The train had backed
to some cars which had been placed
there the evening before, and from
which the stock had been unloaded.
Mr. Hannah had made his coupling
and was attempting to get clear of
his car when he struck the door of a
stock car that had evidently been pull-
ed completely off the car and had drop-
ped down between the track and the
stock platform. This had been care-
fully left in the position in which it fell.
Mr. Hannah's own car struck him
on the hip and crashed him against
this door, turning him around and
around. He could neither crawl out,
nor jump to the top of the platform.
He shouted for help and attracted the
attention of the engineer, who brought
the train to a standstill. It took the
utmost strength of three men to ex-
tricate the unfortunate man from his
terrible position. He was tightly wed-
ged against the obstruction mentioned
above. When released he fainted but
quickly came to. The injured man was
taken to his house and medical aid was
procured.

It is impossible at the time of writ-
ing to speak with any certainty as to
the extent or gravity of Mr. Hannah's
injuries. He lies in an exceedingly
critical condition. The excellent medi-
cal attendance and the ministrations of
kind and sympathetic friends, are, of
course, points in favor of his recovery.

Mr. Hannah is spoken of amongst
railway men as one of the most possi-
ble taking and efficient men on the divi-
sion. It is greatly to be regretted that
the criminal negligence of some one has
resulted in the infliction of serious if
not fatal injuries upon a young man in
the prime of his life.

THRASHING ACCIDENT.

A painful accident occurred at a
thrashing near Moose Jaw, on Satur-
day last, which resulted in the serious
injury of Mr. Wm. White of 32-15-24.

Mr. White was driving the horse on
the horse-power, and while in the act
of starting the horses, his left foot
slipped and was crushed. He was
speedily extricated from his dangerous
position and was taken to the house of
Mr. Langford, where he was cared for
until Tuesday morning, when the injured
man was taken to the hospital at
Medicine Hat. It is feared that am-
putation will be necessary.

Mr. White is a well-known farmer
having come to this country from Wis-
con, Ontario.

Richly Sold.

Medicine Hat Times:—A large
number of Medicine Hat's citizens, in-
cluding several prominent ladies and
gentlemen, were beautifully sold last
Saturday evening. It had been rum-
ored in town during the afternoon that
Miss Annie Moran (Gentle Annie), a
well known character, was to be mar-
ried in the evening to a Mr. Gendrow,
who had arrived in town a few days
previous from nobody knew where.
Before the hour named for the cere-
mony the church was filled with ladies,
while a large crowd of men and boys as-
sembled before the door awaiting the
arrival of the illustrious bride and
bridegroom. But they never came, and
in about half an hour it dawned on the
assembled spectators that they had
been sold, and in ones and twos they
slipped out of the church, mostly by
the vestry door, and returned home by
the least frequented streets. The
couple were married at 6.30 on Mon-
day morning in the presence of two
witnesses.

The Thanksgiving supper, given by
the Ladies' Guild of the Church of St.
John the Baptist, will be held in Camp-
bell's Hall on the evening of the 10th
inst. An interesting programme is in
course of preparation. During the
evening a sale of goods left over from
last bazaar will be held at greatly
reduced prices.

Conversations.

A conversation given under the
auspices of the Christian Endeavor of
the Moose Jaw Methodist Church, was
held on Monday evening last.

Mr. E. N. Hopkins occupied the
chair and performed his duties in a
happy manner.

The following programme was pre-
sented:

Opening Chorus..... The Choir.
Address..... Rev. Mr. Griffin, Boham.
Address—"Ten ways to insult your Pastor"
—Rev. Mr. Mack.
Quartette..... Messrs. Stacey, Hogg, Battell
and Hicks.
Address..... Rev. Mr. Reid, Pasqua.
Chorus..... The Choir.
Address..... Rev. Mr. Clay.
Duet..... Mrs. Hogg and Mrs. Laycock.
Chorus..... The Choir.
Address..... Rev. Mr. Stacey.
Solo..... Mr. G. Hogg.
Chorus..... The Choir.

The pronouncing of the benediction
by the Rev. Mr. Clay brought a most
enjoyable evening to a close.

West Government with Mr. Angus McKay,
manager of the experimental farm, Indian
Head, Assiniboia, who has been commissioned
by the Dominion Government to act in that
behalf by which all persons and societies in
the Territories who are willing to aid in con-
tributing to the North West exhibit at Chicago
can do so by forwarding their exhibit to him at
Indian Head.

After arrival at Indian Head, the exhibits
will be rearranged according to the require-
ments of the World's Fair Commissioners and
forwarded to Chicago, where they will be taken
charge of by the Canadian Commissioners.
All exhibits will be insured by Government
and returned after the exposition close to the
exhibitor free of cost. Freight on all exhibits
will be paid by Government.

Intending exhibitors may obtain all necessary
information connected with the forwarding,
etc., of exhibits by corresponding with the Ex-
ecutive Committee, Government Office, Regina.
Exhibits are solicited of Grains, Roots, Grass-
es, Dairy products, Minerals, Coals, Woods,
Furs, Building Stone, Stuffed Birds, Animals,
etc., Fish, Insects, Natural and Indian Curio-
ties, Photographs, etc., etc. Whatever in fact
will illustrate the resources or history of the
country.

Residents of the Country are earnestly re-
quested to assist by every means in their power
in making the North West exhibit a success by
contributing, where they can, personally and in
such other ways as may seem to them.

With the exception of dairy products, ex-
hibits from now on should be forwarded as
soon as possible and full information should
accompany each article exhibited.
